Data Quality Guideline	*Data Quality Guideline: Information Management Framework*
Standards Development Model	*A Health Interoperability Standards Development, Maintenance and Management Model for Australia*
2022–23 specification	*Victorian Alcohol and Drug Collection (VADC) Data Specification 2022–23*

Glossary

Reasonable assurance	We achieve reasonable assurance by obtaining and verifying direct evidence from a variety of internal and external sources about an agency's performance. This enables us to express an opinion or draw a conclusion against an audit objective with a high level of assurance. We call these audit engagements

See our assurance services fact sheet for more information. |
| Limited assurance | We obtain less assurance when we rely primarily on an agency's representations and other evidence generated by that agency. However, we aim to have enough confidence in our conclusion for it to be meaningful. We call these types of engagements assurance reviews and typically express our opinions in negative terms. For example, that nothing has come to our attention to indicate there is a problem.
